Enjoy comfort and simplicity for controlling your comfort

Models TC-PHP01, TC-PAC01, TC-NHP01, TC-NAC01, TC-SNAC, TC-SNHP, TB-PHP01, TB-PAC01, TB-NHP01, TB-NAC01

THE CARRIER DIFFERENCE

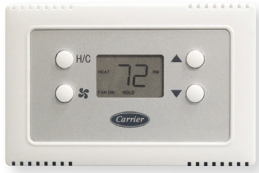

Carrier Comfort™ Series thermostats are designed to give you flexible solutions that work on a multitude of systems. With several distinct options to choose from, you'll find an economical solution for your needs with a model perfectly matched to your Carrier home comfort system.

STANDARD MODELS

Our standard Comfort™ Series programmable thermostat encourages comfort and savings with our 5/2 programming and Touch•N•Go® buttons. With Touch•N•Go, select from three pre-set temperatures to match your home's status. Home for maximum comfort when you're there... Away for less energy use when you are out and not able to enjoy the comfort... and Sleep for when you want to rest easy with the right mix of not too hot or not too cold.

Both standard models – programmable and nonprogrammable – offer large, easy-to-read illuminated displays, auto changeover between heating and cooling operation for seamless comfort between seasons and fixed schedule filter change reminders.

BASE MODELS

Even our most basic programmable thermostat offers the ability to match your lifestyle with one comfort schedule during the typical five-day work week, and a separate schedule for the weekend. It's our most affordable way to enjoy comfort when you need it and economy when you don't. Both of our base model thermostats offer the ability to select continuous fan for enhanced airflow and indoor air quality, or auto fan for airflow only during heating and cooling operation.

LIMITED WARRANTY

Comfort™ Series thermostats are covered by a five-year parts limited warranty upon timely registration. The limited warranty period is three years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See limited warranty certificate at carrier.com for complete details and restrictions.
