Air Conditioners & Evaporator Coils

R-454B™

UP TO 18.5 SEER2

OUR PROMISE

When you choose WeatherMaker by Carrier products, you'll quickly see why they're a smart, practical choice—affordable and built to perform.

PEACE OF MIND

The Well-Built Warranty.
Every air conditioner and evaporator coil we build is covered with a 10-year parts limited warranty to the original owner of the properly registered product.*

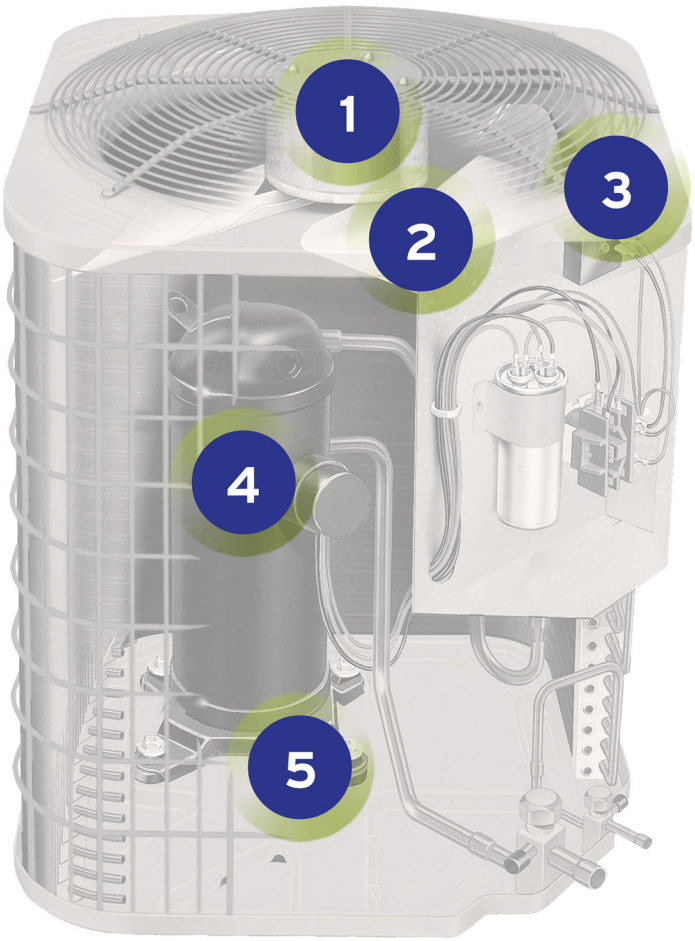

Run-tested and right for you.
Because we only feel comfortable providing you with long-lasting comfort and efficiency, only products that complete our testing with a 100% success rate make it out of the factory.

WHAT IS SEER2?

Like a car's mpg, SEER2 (Seasonal Energy Efficiency Ratio) is the measure of cooling efficiency for an air conditioner. It tells you how much heat is removed from your home in relation to how many watts per hour it takes to reach your set comfort level. The higher the number the better, because when you waste energy you waste money.

R454B™

These air conditioners
use EPA-approved refrigerant.

1. **Durable fan motor** – Battling the summer heat for years of smooth-running operation, our fan motor ensures reliable comfort.
2. **Minimal resistance** – The exclusive design of our fan blades improves economy and reduces noise from turbulent air movement.
3. **Good looks** – The corrosion-resistant, painted exterior finish will stay looking good now, and for years to come.
4. **Reliable R-454B compressor** – You want the most important part of the entire unit to stay running strong, right? With built-in protective features, our compressor operates quietly and reliably for years of cooling comfort.
5. **Smooth and quiet** – Rubberized isolation pads create a buffer between the base pan and the compressor to absorb vibrations and minimize noise.

* Warranty period is five years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts limited warranty. See warranty certificate for complete details, terms and exclusions.

AIR CONDITIONERS

PA8TAN5

UP TO **18.5** SEER2

- Two-stage compressor
- R-454B refrigerant
- Deluxe dense grille

PA5SAN5

UP TO **16.5** SEER2

- Single-stage scroll compressor
- R-454B refrigerant
- Deluxe dense grille

PA4SAN5

UP TO **16.0** SEER2

- Single-stage scroll compressor
- R-454B refrigerant
- Deluxe dense grille

INDOOR EVAPORATOR COILS

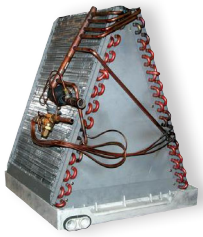

CVAM (Multi-Poise) CVAV (Vertical)

- Cased V-Coil
- R-454B refrigerant
- CVAV = Upflow/downflow application
- CVAM = Multi-poise application

CSAHP

- Horizontal application
- R-454B refrigerant

CAAVU

- Uncased A-coil
- Vertical application
- R-454B refrigerant

CAAMP (Multi-Poise)

- Cased A-Coil
- R-454B refrigerant
- Multi-poise application

An important part of your new cooling system's performance is the indoor evaporator coil. We offer a variety of models to match with the air conditioner you have selected. Your WeatherMaker dealer can help determine the one that is right for you.

WEATHERMAKER BY CARRIER. BECAUSE COMFORT ISN'T COMPLICATED.

WeatherMaker delivers practical, affordable HVAC systems for those who prefer comfort without complexity. Because the bottom line is, you need cost-effective heating and cooling solutions that keep your family comfortable year-round. Homeowners who choose WeatherMaker are delighted with their decision because it's a sensible choice that delivers strong value at purchase, reliable performance, and added peace of mind through product warranty coverage.
