WeatherMaker®
By Carrier

80% Gas Furnaces

80% AFUE

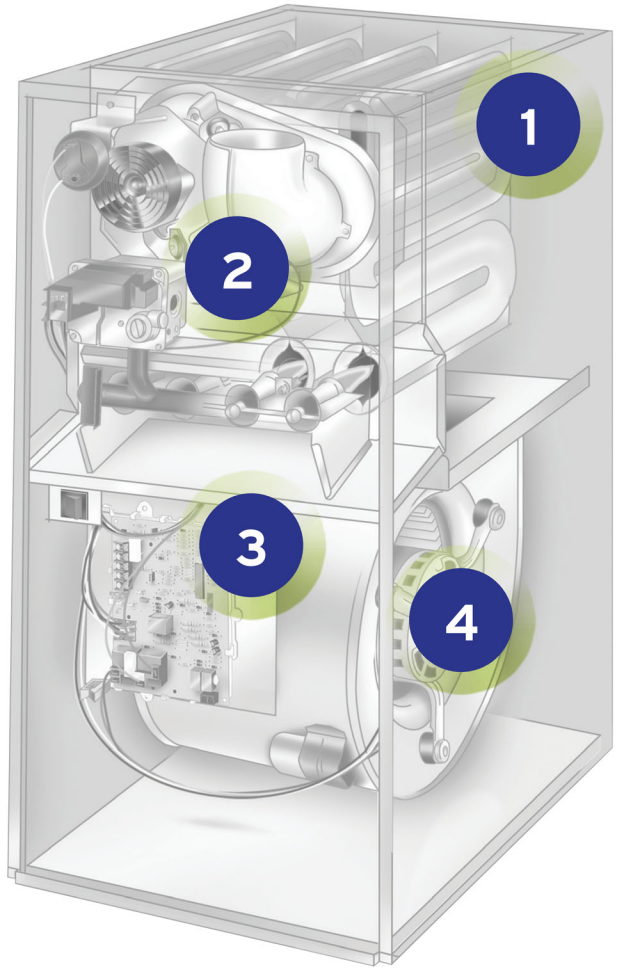

OUR PROMISE

When you choose WeatherMaker by Carrier products, you'll quickly see why they're a smart, practical choice—affordable and built to perform.

PEACE OF MIND

The Well-Built Warranty.
Every furnace we build is covered with a 10-year parts limited warranty to the original owner of the properly registered product.* The heat exchanger is covered by a 20-year parts limited warranty.

Run-tested and right for you.
Because we only feel comfortable providing you with long-lasting comfort and efficiency, only products that complete our testing with a 100% success rate make it out of the factory.

WHAT IS AFUE?

Like a car's mpg, AFUE (Annual Fuel Utilization Efficiency) is the measure of fuel efficiency for a furnace. It tells you what percentage of consumed heating fuel, on average, actually goes to heating your home. The higher the number the better, because when you waste fuel, you waste money.

Example: For each $1.00 of heating fuel that the WeatherMaker PG80VTL furnace uses, up to 80% (or up to $.80) of it is used, on average, to actually heat your home.

Variable-Speed

The PG80VTL features a variable-speed blower motor. This technology can help save you money year-round on utility bills while being extremely quiet. Saving money never sounded so good.

1. **Efficiency that lasts** – Our 80% AFUE furnaces can save money on operation compared to older, less-efficient models. And WeatherMaker stands behind their reliable performance, season after season. The heat exchanger, for example, is specially designed for lasting corrosion resistance and durability.
2. **Reliability** – The hot surface igniter is built so you can count on heating when you need it.
3. **Responsiveness** – We did get a little fancy with our advanced electronic control for reliable activation and continuous monitoring of the system.
4. **Blower motor options** – The broader the spectrum of speeds a blower motor can accommodate, the more efficiently and quietly the furnace can heat and circulate the air. We offer furnaces with multi-speed and variable-speed blower motors.

* Warranty period is five years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts limited warranty. See warranty certificate for complete details, terms and exclusions.

OUR 80% GAS FURNACES

PG80VTL

80% AFUE

- Variable-speed blower motor
- Two-stage gas valve

PG80MSA

80% AFUE

- Multi-speed blower motor
- Single-stage gas valve
- PG80MSU Ultra-low NOx model available
- PG80MSL Low NOx model available

WEATHERMAKER BY CARRIER. BECAUSE COMFORT ISN'T COMPLICATED.

WeatherMaker delivers practical, affordable HVAC systems for those who prefer comfort without complexity. Because the bottom line is, you need cost-effective heating and cooling solutions that keep your family comfortable year-round. Homeowners who choose WeatherMaker are delighted with their decision because it's a sensible choice that delivers strong value at purchase, reliable performance, and added peace of mind through product warranty coverage.
